

MR NHLAMULO KARABO MAGONGWA

As a seasoned IT innovator, I'm excited to propel any institution or company to new heights in a dynamic software design engineering role. My proven leadership saw a team achieve a 20% efficiency boost and 15% project timeline reduction through cutting-edge software solutions. With expertise in Programming & Full-stack development, I believe I'm primed to bring impactful breakthroughs to elevate reliability.

EXPERIENCE

JAN 2021 –
PRESENT

KARIC GROUP, PRETORIA – SOFTWARE DESIGN ENGINEER & CONTENT PRODUCER

Currently I meticulously review code and content, ensuring compliance with industry standards. I adeptly produce and optimize content, conduct data analytics, procure media equipment, and uphold data warehouse integrity, elevating team productivity and project outcomes.

PART-TIME SOFTWARE DEVELOPER & CONTENT PRODUCER

Innovative part-time software developer seamlessly integrates expertise in code reviews and software discussions with content production for the media department. Elevates personal development through leadership in our dynamic IT field.

PART-TIME SYSTEMS SOFTWARE DEVELOPER & CONTENT CREATOR

Revamp client content management systems to align with company standards as a part-time systems software developer and content creator, enhancing scalability and overall system performance.

JAN 2018 –
DEC 2020

MDS COLLIVERY HQ, JOHANNESBURG – SOFTWARE DESIGN ENGINEER

Responsible for the comprehensive design and coding of front-end, back-end, and logical solutions. The primary focus of my work revolves around innovating and implementing new features to enhance the functionality of the courier service platform. This entails conceptualizing, estimating, and executing coding tasks, contributing to the continuous improvement and evolution of the software infrastructure.

JAN 2016 –
DEC 2017

PMDMS, CENTURION – TELECOMMUNICATIONS INTERNSHIP

During the internship, I learned about applicant tracking systems (ATS) and how to use their algorithms, as well as coding and scripting. Additionally, I coded and developed server code to make modifications to existing network environments.

EDUCATION

2021 – 2024

BACHELOR OF INFORMATION TECHNOLOGY

Belgium Campus University Faculty of Information Technology

CERTIFICATIONS

2021 – PRESENT – MICROSOFT CERTIFICATIONS

Microsoft Thinti'Million, Literacy, Spreadsheets, Database Systems, Presentation, Computer Applications Technology, Power Bi

2016 – PRESENT – LINKEDIN CERTIFICATIONS

Succeeding in Web Development: Full Stack and Front-End Course, Programming Foundations: Fundamentals Course, Programming Foundations: Databases

2012 – CERTIFICATION OF COMPLETION

Willowridge high school
